

ATOMIC REACTOR

Atomic Reactor is another futuristic vision of slot entertainment, that re-engineers traditional slot gameplay into a sensational, new way to play. Beyond its instantly beguiling particle -accelerating 'reels', Atomic Reactor has Black Pudding's formidable Orbital Reactor™ slot engine at its core. That delivers a mesmerising mechanism, fusing a distinctive pay rule, chain reactions and a win-boosting Multiplier Meter to yield potentially awesome paying power for players seeking a mission with reel fission!

Factor in Atomic Reactor's two irresistible bonus features that harness the game's stunning presentation to encourage player interaction, together with a design tailor-made for mobile devices and you have a slot that offers players an extraordinary powerhouse of compelling entertainment and big-win generation.
